Practice Makes Preparedness FCSIT Conducts Full-Scale Evacuation Drill

– By Nursyahirah Mamat Yasin, Siti Hafizah Ab Hamid

In line with Universiti Malaya’s commitment to ensuring a safe and responsive campus, the Faculty of Computer Science and Information Technology (FSKTM) successfully conducted a comprehensive evacuation drill involving all staff, students, and visitors. The evacuation drill was conducted on 26 Februari 2025 at 9:00 AM, throughout the FSKTM Buliding, encompassing Block A & Block B, Universiti Malaya.

This exercise involved the full participation of academic staff, administrative and technical personnel, as well as students who were present on the premises during the drill. The drill was coordinated by the FSKTM Occupational Safety and Health Committee (JKKP FSKTM), with strategic support from the following agencies:

- Fire and Rescue Department of Malaysia (BOMBA), Pantai Dalam
- Occupational Safety and Health Office, Universiti Malaya (OSHE UM)

Additional safety demonstrations were conducted as part of the drill, which included a practical briefing on the proper handling and operation of fire extinguishers. Participants were also briefed on the correct procedures upon reaching designated assembly points, including headcounts, reporting protocols, and maintaining clear communication with emergency response personnel. These demonstrations aimed to enhance practical knowledge and reinforce correct safety behavior during actual emergency situations.

The FSKTM Management would like to extend its sincere appreciation to all academic staff, administrative personnel, technical officers, and students who demonstrated full commitment, cooperation, and discipline throughout the execution of the evacuation drill. Active participation by FSKTM team played a vital role in ensuring the smooth implementation of the exercise and reflects our shared commitment to upholding the highest standards of safety and preparedness within the faculty.

Safety is a shared responsibility, and maintaining a culture of preparedness is a crucial element of operational excellence at FSKTM. Through continuous training and proactive measures, we aim to foster a resilient and safety-conscious academic community.
